FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Elementary and Secondary Education** state this proposal will have no effect on state funds.

Officials from the **Joint Committee on Education** state this proposal adds no costs for the Joint Committee on Education.

Officials from the **Special School District of St. Louis County** state this proposal would have no fiscal impact on their district as they spend much more than one percent of their formula amount on professional development.

Oversight assumes this proposal will have no fiscal impact on school districts. It simply gives them the option to redirect one percent of formula funding to other areas other than professional development if they so choose.
